

il focus
è ristrutturare
la vecchia fabbrica in disuso
e costruire **un loft**
in cui ideare il proprio **habitat**
con il nostro
progetto **FACTORY**

The focus is restyling
the old factory
and building a loft
where create
his own habitat
with our FACTORY program

Con FACTORY il concetto di arredo si traduce in un progetto inedito, dove ogni elemento funzionale definisce lo spazio, creando continuità e perfezione estetica.

With FACTORY the concept of furnishing becomes a brand new project, where each functional element defines space, creating continuity and aesthetic perfection.

Ogni elemento della cucina si inserisce in un contesto più ampio, ridefinendo lo spazio circostante. In questo senso il lavello in corian con vasca integrata diventa un pilastro importante nella composizione, demarcando il movimento delle basi e contribuendo alla funzionalità della cucina.

Each element in the kitchen fits into a wider conceptual space, re-defining the surroundings. In this context the corian integrated sink becomes an important element of the layout, outlining the movement of the base units and contributing to the functionality of the kitchen.

L'importanza della funzione è in primo piano in questo progetto cucina.
A rimarcare il concetto è l'elemento terminale con struttura in alluminio, utilissimo ma anche di forte impatto estetico.

The importance of function is at the forefront in this kitchen project.
Highlighting this concept is the end unit with aluminium structure, it is very useful while having a strong aesthetic impact.

Eclettica e funzionale, l'isola con piano snack, che all'occorrenza può fungere da tavolo pranzo.

La forte personalità della cappa a isola insieme agli sgabelli, dona all'ambiente un affascinante e suggestivo sapore vintage.

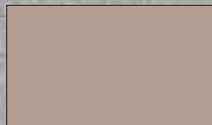

Eclectic and functional, the island with snack counter can become a dining table if necessary.

The strong impact of the island hood and the stools give the room a fascinating and striking vintage feel.

Gli stili si distinguono per ricchezza di forme e finiture importanti.
In questo caso la finitura Pembroke, nel tono cipria, smorza l'effetto industriale, conferendo alla cucina uno stile più sobrio e moderno. Risultato a cui contribuisce anche l'estrema pulizia delle linee e il design essenziale della composizione.

Styles stand out due to their wealth of shapes and important finishes.
This image shows the Pembroke finish in powder, which softens the industrial effect, giving the kitchen a moderate, modern style.
The result is also obtained with very clean lines and the straightforward design of the layout.
